

**One session from 15h30 to 16h30**  
**Living with Disability in the Vicarage**

**With Rev Jo King & Rev Brendan Martin**

**Workshop introduction**

Join your Diocesan Disability Advisors for a conversation about living out your vocation with disability as part of the mix. We welcome anyone living with an experience of disability, whether your own or a family member, however you understand disability. We are planning to develop a confidential support group for clergy in the diocese who shared this lived experience and would love to hear from you.

**Learning Points**

- We will consider issues around human dignity and value for those with disabilities
- We will discuss the ways in which individual churches support and encourage the flourishing of the disabled people in their community
- We will reflect on who is included in label- 'disabled community'
- We will plan for mutual support and encouragement for all those living with disability across the diocese.

**Workshop Outline**

The workshop will allow plenty of time for conversation and sharing of experience, the conversations will be guided by the conversations starters outlined below.

- Sharing our living experience
- The positives for ourselves and our congregations
- The challenges for ourselves and our congregations
- How do we understand disability and include the right people
- What does good support and encouragement look like in this diocese
